### Schulich Medicine and Dentistry Research

#### General

- General inquiries can be directed to [research@schulich.uwo.ca](mailto:research@schulich.uwo.ca), 519-661-3755
- Website: <https://www.schulich.uwo.ca/research/>
- Research Operations, Preclinical and Clinical research: [https://www.schulich.uwo.ca/research/research\\_operations/index.html](https://www.schulich.uwo.ca/research/research_operations/index.html)
- Research Staff directory: [https://www.schulich.uwo.ca/research/about\\_us/people.html](https://www.schulich.uwo.ca/research/about_us/people.html)

#### Internal Grants

- Schulich Infrastructure Support (SIS)
  - Grant for research equipment that cannot be obtained through other channels
- Collaborative Research Seed Grant (CRSG)
  - Intended to provide seed funding to help generate novel data, initiate new intellectual directions for faculty, and foster relationships across disciplines and/or departments
- Faculty Support for Research in Education (FSRE)
  - Intended to support full-scale education research projects and pilot projects where there is a plan to collect preliminary data in preparation for a larger upcoming application to an external funding agency
- <https://www.schulich.uwo.ca/research/funding/internal.html>

#### Grant Support

- Coordinate grant **application signature** for Schulich faculty from the Vice Dean, Schulich Research and Innovation; needs at least 1 business day
- Grant writing resources:
  - i. Provide a list of internal, external and international funding opportunities with a brief description and link to the funder website
  - ii. Provide a list of links to various online grant writing resources
  - iii. Grant facilitation support, i.e. identify opportunities, support project/proposal development, support research team development and provide administrative support; for large strategic initiatives, assist with drafting sections of the grant application (non-science sections – for example, letters of collaboration, description of the team, etc.)
  - iv. Grant focus:
    - Individual grant proposals and applications to various funding agencies/foundations (including but not limited to: CIHR, NSERC, NIH, DoD, Weston Brain Institute, MJFF, ADDF etc.)

- Large Strategic or Team grant initiatives to various funding agencies (including but not limited to: CFI, ORF, NIH, DoD, CIHR Team Grants etc.)

### Resources

- Qualtrics – This survey software is available to all Schulich School of Medicine & Dentistry Faculty, Staff, and Students: <https://www.schulich.uwo.ca/information/services/resources/qualtrics.html>
- Altmetric – Access to this web-based platform which measures attention of scholarly articles in social media, traditional media and online references: <https://www.schulich.uwo.ca/research/services/altmetric/index.html>

### Information

- Provide web links to core facilities, groups, centres and programs for Schulich research faculty
- Provide the list of Schulich Canada Research Chairs and links to their websites

### Student/Trainee Training

- Support for Student and Trainee research programs – facilitation of research opportunities for students/trainees from undergraduate students to new faculty researchers
  - i. Student Research Training Programs
  - ii. Clinical Research Training Programs
